Train the Trainer ❖ 2012

Train the Trainer is designed for qualified operators previously trained and certified who will conduct Operator Training for their employer according to current OSHA safety standards. Among topics covered are classroom training materials and methods, hands-on training guidelines and skills evaluation, pedestrian safety, equipment safety inspection, safe workplace conditions, detailed OSHA requirements, refresher training, documentation and recordkeeping. Training Certificates are issued to participants upon successful completion. All materials required to conduct thorough OSHA compliant in-house Operator Training Programs are provided, including:

- "It's Up to You" DVD by Crown Equipment
- Trainer's Reference Binder
- Hands-on Training Guidelines CD
- Operator Training Resources CD with printable documents
- Operator Evaluations
- Operator's Checklist
- OSHA 1910.178 PIT Safety Standard

Location: Omnilift, Inc.
 1938 Stout Drive
 Warminster PA 18974
